

To Whom it May Concern,I benefit from listening to XM Satellite Radio and its traffic and weather channels. Living in Los Angeles where there is always traffic problems (not so much with the weather, though!) Satellite Radio has become invaluable. I pay for these services, and I do not believe it should be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge you to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming tha tI demand and deserve.

Thank you for your attention to this.
